

[illegible]

Technical drawing of a rectangular device, possibly a component of a vehicle seat or a small cabinet. The drawing shows a side view of the device with a handle on the left side. The handle is labeled with the number 7. The device has a latch mechanism on the right side, which is labeled with the number 6. The overall width of the device is indicated by a dimension line at the bottom, labeled with the number 25. The drawing is enclosed in a rounded rectangular frame.
